See below for a description of the Levels and a breakdown of the lodgement fees.

## Levels

The NOS and MTC sets out three levels of buildings and is defined using the BS EN 13829:2001.

BS EN Standard 13829:2001 - 'Thermal Performance of Buildings - Determination of air permeability of buildings - Fan pressurisation method'

### Level 1

Air tightness testing for single dwellings and other small simple buildings up to 4,000 m<sup>3</sup>

### Level 2

Air tightness testing for non-simple buildings over 4,000 m<sup>3</sup>

### Level 3

Air tightness testing for large, complex, high rise and phased handover zonal buildings
