

Technical Energy Consultant

Department	Consultancy	Start	June 1 st 2025
Location	Lutterworth - includes some Hybrid	Reporting to	Consultancy Team Leader
Hours	37.5 Hours per week Mon-Fri 9am-5pm	Salary	Dependant on industry knowledge and experience £25,000 to £26,000

About the Role

There has never been a more exciting time to work in energy efficiency. Government commitment to reduce carbon emissions to 'net zero' by 2050 means that there are numerous changes in legislation which is radically changing the way we build and heat our homes.

In this exciting role within our Consultancy team, you'll gain hands on experience across multiple energy assessor strands, providing a deeper understanding of the industry and empowering you to identify opportunities for positive change and growth with the industry. We're committed to investing in our people, supporting each employee's learning journey through tailored development and continuous training fostering both professional excellence and personal growth in a rapidly evolving sector.

What can I expect to do in the role?

The Technical Consultant will work closely with all departments across the business and with a range of external agencies to successfully manage the development of software, competency schemes, training, assessments and the piloting of novel services, which is at the heart of what we do.

As a Technical Consultant, you would be the advocate within the scheme or service development, collaborating with stakeholders throughout the company and externally to ensure high quality and on-time delivery. You would achieve this through seamless communication with both technical and non-technical stakeholders and by building relationships with key stakeholders to ensure all relevant knowledge flows into the project process.

At Elmhurst Energy Services, our expertise in schemes and novel approaches is at the core of our business success, playing a key role in maintaining our position as the building energy rating industry leaders promoting the Elmhurst brand through the development of products and services. Demands driven by internal and external stakeholders, government initiatives all ensure that we continue to improve the methodology on which applications are based which increases the degree of variation and complexity inherent in the process.

Elmhurst Energy is passionate about energy assessment and creating a more sustainable, energy efficient society. We are recognised for driving standards of excellence in building energy assessment in this growing and increasingly high profile industry. We do this through our software development, training delivery and outstanding technical support.

About you

People are what make Elmhurst great. It is the drive and commitment of our people that creates our success, which is why we focus on recruiting and developing the best talent.

We are seeking an individual who possesses a strong 'Can-Do' attitude, willing to go the extra mile to provide a positive customer experience.

Essential skills and qualifications:

- ✓ You will have a 'can do' positive proactive attitude, with an innovative approach to your work, looking to develop and suggest improvements.
- ✓ You will be educated to A level or equivalent standard and it would be an advantage, but not essential, if you have a relevant graduate or equivalent qualification.
- ✓ An excellent communication style for verbal and written correspondence
- ✓ Good attention to detail with common sense and good problem solving skills.
- ✓ You should be comfortable working in an environment where IT is an important tool for our business.
- ✓ You may be a qualified DEA, OCDEA or NDEA or have knowledge and experience of the energy assessment industry and EPCs.

Preferred (but not essential) skills and qualifications:

- ✓ You may have working experience in the built environment industry and be keen to receive full accredited training in Energy Assessment as a future career.
- ✓ You may have an interest in renewable energies and/or sustainable buildings

Application process

- Send your CV with introduction to Carolyn our HR Manager at HR@elmhurstenergy.co.uk. Please let us know with your CV why this role is of interest to you and why you feel you are a great fit for the position.
- First stage: We like to start with an initial 10 to 15 minute telephone conversation. This will cover the basics and make sure the role is what you are looking for and is worth pursuing further.
- Interview: Successful candidates will be invited to attend an in person interview.
