
The Elmhurst Member Quality Promise

Trusted, quality energy assessments from Elmhurst Accredited Professionals

Trained and qualified

Able to provide accurate energy assessments and helpful Energy Performance Certificate (EPC) advice

Fully insured to protect clients

Compliant with the latest regulations and standards

Why choose an Elmhurst accredited member for your energy assessment?

As the UK's largest government approved energy assessment scheme, Elmhurst Energy stand with their accredited members who are fully trained and qualified to deliver a quality energy assessment service.

Rest assured that all Elmhurst members have received extensive training, hold the necessary qualifications and insurances to protect customers, and also have the right processes in place to deliver accurate energy assessments which comply with the latest standards.

All Elmhurst accredited members are:

- ✓ expertly trained and qualified, with a comprehensive understanding of energy calculations and Energy Performance Certificates (EPCs).
- ✓ able to provide helpful information and advice to support your understanding of the EPC, the methodology behind it and the recommendations provided from your report.
- ✓ supported by the UK's largest energy assessment accreditation scheme, with access to government approved software and dedicated support to ensure an accurate assessment is carried out.
- ✓ regularly audited to ensure ongoing competence in their work.
- ✓ compliant with the latest government regulations and standards.
- ✓ fully insured to protect clients from accidental damage and also rare cases of defective EPCs.
